Slacker Provides Unlimited Free Music On the Go with All New Slacker G2 Personal Radio Player

Ultra-Portable Slacker G2 Lets Listeners Take Their Favorite Personalized Slacker Radio Stations on Planes, Trains and Everywhere in Between

SAN DIEGO, Calif. – September 16, 2008 – Slacker, Inc., today announced the availability of the Slacker G2 Personal Radio Player, the next generation of the world’s only completely portable Personal Radio player. The Slacker G2 gives music lovers the freedom to listen to their favorite Slacker Radio stations on a full-featured portable player, wherever they go – even when not connected to any network.

Slacker Personal Radio, available online at www.Slacker.com, enables listeners to personalize over 100 expertly programmed stations and create, edit and share their own Personal Radio stations. Slacker listeners also have easy access to artist profiles, album reviews and cover art within the Slacker Web Player and on their Slacker Personal Radio Players.

The same Slacker Personal Radio experience listened to by millions is now completely portable with the Slacker G2 Personal Radio Player. Slacker’s patent-pending radio delivery network automatically downloads and continuously refreshes thousands of personally selected songs on each device, and turns them into personalized radio stations – all for free. Because the players don’t have to be connected to Wi-Fi to play, Slacker G2 owners can listen to CD quality, personalized radio everywhere they go.

Personalized music is automatically delivered to the Slacker G2 without having to manage playlists, research new artists or deal with complicated software. The Slacker G2 does all of the work – just plug in headphones and listen to the perfect music experience wherever you are.

There is no subscription required for Slacker G2 owners to access the extensive Slacker online music library, artist profiles, album reviews and large cover art. The Slacker library of millions of songs from all genres and eras ensures that music lovers can enjoy radio stations ranging from music of the golden-era classics to today’s hottest hits.

“The Slacker G2 makes personalized radio ultra portable,” said Dennis Mudd, CEO of Slacker. “It lets you listen to the music you love everywhere you go, without having to work at it.”

Whether listeners choose from more than 100 expertly programmed Slacker stations, over 10,000 artist stations, or their own custom-created stations, the Slacker G2 provides an unparalleled music discovery and listening experience without the need to manage playlists

or download and transfer individual songs. Easily accessible "Favorite" and "Ban" buttons provide for quick personalization of each station while listening to the Slacker G2.

Slacker has previously announced licensing arrangements with all of the major record labels and publishers, and thousands of independent labels and publishers, to provide access to millions of songs that can be played online or on Slacker Personal Radio players.
